Overall Rating	4.3		
Number of Total Ratings	121,660		
App Description	<p>THE MOST ADVANCED FIGHTER PLANE COMBAT AND FLIGHT SIMULATOR Plan your tactical missions and start now the World Supremacy challenge. Destroy ground, sea and air targets. Fight against waves of enemy planes in Dog Fight. Thousands of new missions every day: an adventure without limits!Realistic world maps and navigation, over 500 real airports, 1,107 runways, aircraft carriers and real-time weather conditions. IMMERSIVE GAMEPLAY Train and get ready to combat. Test yourself in World Supremacy, where you will take part in the best missions published worldwide. Become a flying ace in Dog Fight, where you will face ever stronger enemy jets: 6 game modes to become a top gun. Unlock new increasingly powerful weapons for each aircraft. AIRCRAFT CARRIERS - NAVAL OPERATIONSUsing aircraft carriers or airports as a base for your missions, you can expand your range of action.BUILD YOUR MISSIONSChoose an area of the world and create your tactical missions, choosing from a huge selection of different air/ground/naval targets. Publish your best missions and let other players rate them.UNPRECEDENTED REALISMFeaturing 569 of the world's major airports with locations and runway lengths accurately reproduced. The planes you will fly are true to life in performance, characteristics and fuel capacity: you can test yourself in vertical takeoff, take advantage of the variable-geometry wings and fly in the cockpit of the best fighter jets on the planet. The flight engine allows you to navigate the entire globe, but pay attention to fuel capacity and make sure to ask for in-flight refueling in time. Negative

1	<p>I was a big fan of this game, i bought almost all the planes but now with the new update you can barely do something, only 5 missions. You can't play on dogfight mode or worldwide supremacy anymore and with the whole subscription part this update truly disappointed me. Pure greediness. Uninstalling</p> <p>It WAS a great simulator before the update which has ruined everything! You even have to pay for dog fights now! There are hardly any games for you to play and once you have finished that is it! Before the update I bought 2 planes (F-14 and Typhoon) and I was very pleased with them. But now I don't have anything to do with them since the update because I don't have the add on which enables dog fights and etc. They have turned this game from a good simulator into a complete money grab! Game is only good if you buy pack. I feel ripped off after the new version came out.</p>
1	<p>Was a great game but these greedy money grubbing people have ruined a great game I ready had all the planes and no I have only one.. you also could play offline.. now u can't.. why is it always about the \$\$ with these ppl. And to pay \$16 every 3 months.. yeah right. Stick it RORTOS!!! Thanks for nothing..</p> <p>This is a good game, living up to Rortos' reputation, but it feels a bit disappointing, as it is not actually that different from Air Navy Fighters. I went in expecting a much more advanced simulation, like Carrier Landings, but I was a bit disappointed. I feel the best thing to do would be to combine this with Carrier Landings to get the ultimate jet fighter game on Android. Also, for the love of god, could you reduce the missile spam from enemies? It's quite difficult trying to lock on to enemies while repeatedly pressing the flares button and trying to do evasive manoeuvres. And once you're done with one missile, another one is flying towards you! Update: Upon recently trying the game again, I discovered the horrible changes Rortos has made to the business model. Buying modes that you only get to keep for a limited time and then have to pay again? Really? I'm sure your money is better spent elsewhere, especially judging by how little the game has changed since its initial release.</p>
1	<p>Final Review: Do not like this game other then the controls and the graphics. Once I got pass the training I couldn't do any dogfights unless I paid out of pocket for a jet. After the first mission I had to put an area to fight but no where I went there was nothing to do only take-off and land missions. Do not recommend a waste of time.</p>

And here is a world cloud of the same
